

BANALA PRABANJAN REDDY

Hyderabad, Telangana | 9491190138 | prabanjanreddy07@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer with 1+ year of experience developing AI-powered client applications using LLMs, RAG architectures, and vector embeddings. Proven expertise in building scalable AI solutions with modern frameworks including LangChain, FastAPI, and React. Strong background in full-stack development with hands-on experience in MERN stack and cloud deployments. Passionate about leveraging artificial intelligence to solve real-world problems and streamline business processes.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript

AI/ML Frameworks: LangChain, LLM APIs, RAG Architectures, Vector Databases, Prompt Engineering

Web Technologies: React.js, Node.js, Express.js, HTML5, CSS3, Bootstrap

Databases: PostgreSQL, Prisma ORM

Tools & Platforms: Git/GitHub, Docker, AWS S3, VPS Deployment, FastAPI, Google Sheets API, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

AI Engineer

Sync AI Technologies Pvt Ltd | Hyderabad, Telangana

January 2025 – Present

- Developed AI-powered client applications using LLMs, RAG architectures, vector embeddings, and advanced prompt engineering techniques
- Integrated Gemini, Groq, and other AI APIs to build conversational AI systems, automation workflows, content generation, and reasoning tasks
- Implemented AI automation workflows for video generation and chatbot systems, enhancing client engagement and operational efficiency
- Built RERA compliance software and automation tools for clients to automate certificate generation using AI, reducing manual processing time by 80%
- Collaborated on deploying scalable AI solutions with backend APIs, VPS deployment, cloud integrations, and database systems

Agentic AI Assistant Trainer (Part-Time)

Capabl | On-site

January 2026 – Present

- Conduct technical workshops in engineering colleges, training students on agentic AI systems, LLM applications, and AI assistant development

MERN Stack Intern

WebStack Academy | Remote

July 2024 – September 2024

- Developed a dynamic restaurant website enabling users to browse menus and place online orders with real-time updates
- Designed and implemented responsive user interfaces using React.js, ensuring seamless user experience across devices

KEY PROJECTS

Automated Real Estate Documentation Platform

Technologies: Node.js, TypeScript, Python, Express.js, Prisma ORM, PostgreSQL, JWT, Zod, AWS S3, Docker

- Developed an internal enterprise platform for managing and automating real estate project documentation and certification workflows
- Implemented role-based employee and admin dashboards with secure JWT authentication, project registration, client data management, and tracking systems
- Built automation pipelines for certificate generation and developed a Chrome Extension to streamline data submission into government portals efficiently

AI-Powered RAG Knowledge Assistant

Technologies: Python, FastAPI, LangChain, Vector Database, LLM APIs, PostgreSQL

- Developed a Retrieval-Augmented Generation (RAG) system that automatically downloads and processes judgements, orders, and legal documents from the RERA portal
- Implemented document ingestion, embedding generation, semantic search, and context-aware querying to enable accurate AI-powered question answering
- Built features for document-specific querying and automated summarization, allowing users to generate insights efficiently from large legal document collections

AI-Powered Instagram Video Agent

Technologies: React.js, Python, Groq API, Google Sheets API, Cloud Storage

- Developed an AI-driven automation system for generating Instagram video captions, scripts, hashtags, and metadata for social media workflows
- Integrated LLM pipelines with external APIs and cloud-based storage systems using tool-calling and automated content processing workflows
- Implemented prompt optimization and structured generation pipelines to ensure reliable, scalable, and consistent outputs across executions

EDUCATION

Bachelor of Technology in Information Technology

Guru Nanak Institute of Technology | Hyderabad, Telangana

2021 – 2025 | CGPA: 7.91/10.0

CERTIFICATIONS

- Java Full Stack Development – Wipro
- MERN Stack Development – WebStack Academy
- Programming in Java – NPTEL
- Python Programming – LinkedIn Learning
- AI & Machine Learning Related Certifications
